Reference: June Monthly Report (5/1/01-5/31/01)

Dear Treasurer:

This letter is prompted by the Commission's preliminary review of the report(s) referenced above. The review raised questions concerning certain information contained in the report(s). An itemization follows:

-You have received a contribution from "820 Management Trust", which appears to be an unincorporated proprietorship or partnership. Generally, these types of contributions are to be attributed to each person based on their percentage of ownership in the firm. Each person who has contributed in excess of \$200 since January 1 should be identified by name, address, occupation, name of employer, amount of contribution, and aggregate total on Schedule A. 11 CFR §110.1(k) Please amend your report by providing the omitted information.

Any amendment or clarification should be filed with the Federal Election Commission. Electronic filers must file amendments in an electronic format and must submit an amended report in its entirety, rather than just those portions of the report that are being amended. If you need assistance, please feel free to contact me on our toll-free number, (800) 424-9530 (at the prompt press 1, then press 2 to reach the Reports Analysis Division). My local number is (202) 694-1130.

Sincerely,

Erik W. Koeppen

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office of National Statistics 1999).

There is a growing awareness of the need to develop services to meet the needs of older people, and the need to ensure that the health care system is able to meet the needs of older people. This paper discusses the need for a new approach to the care of older people, and the need for a new approach to the care of older people.

The need for a new approach to the care of older people is based on the fact that the number of people aged 65 and over is increasing rapidly, and the number of people aged 75 and over is increasing rapidly. This means that the health care system must be able to meet the needs of older people.
